Festivities begin early on Saturday June 29th and will include the car show, auctions*, and a special awards dinner program in a beautiful ballroom located at the Texas Motor Speedway.

Recognizing the R107 Series

Mercedes-Benz R107 was produced by Mercedes-Benz from 1971 through 1989, and represents the second longest single series ever produced by Daimler Benz. This iconic body design has become the standard in which all other sports cars are judged and synonymous with the legendary quality that accompanies the Mercedes Benz brand. The R107 generation is a classic 2-seat roadster with a standard soft top, hardtop and optional seats for the rear bench. It was the only cabriolet produced by Mercedes during its entire period of production. They are still in great demand, satisfying to drive, and relatively affordable. This year we will honor the R107 generation by having a judged event for two special eras of the SL class of roadsters produced from 1971-80 and 1981-89.
